PROFILE

Starting with Unity game development, I discovered the magic of coding—transforming abstract ideas into interactive experiences. This initial curiosity grew into a dedicated pursuit of software engineering at BrainStation, where I deepened my understanding of technology's power to solve complex problems. Today, I bring together my story-telling skills from Unity and the comprehensive coding expertise acquired, ready to contribute to innovative projects that tell their own unique stories.

SKILLS

HTML, CSS, JavaScript, Node, React, Express, MySQL, MongoDB, Typescript, Next.js, React Native, Redux, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, GitHub, Visual Studio, Tailwind, Unit Testing, Jest, C#, C++, PHP, Unity, Jira, Microsoft Suite, Lenel, Sharepoint, iCIMS, Accessibility, SEO

Certificates

Unity Game Developer, Unreal Engine Developer, Unity Mobile Developer, Unity Multiplayer: Intermediate, Complete Web Developer Course 2.0

PROJECTS

Software Engineer | Ontario Animal Welfare Network

FEB 2025 - MAR 2025, [OAWN](#)

- Developed a React app with TypeScript and SCSS implementing advanced accessibility features and SEO optimization.

Software Engineer | BoguStore

SEP 2024, [BoguStore](#)

- Developed a mock e-commerce store using Next.js, Tailwind, and Redux, showcasing unit testing using Jest.

Software Engineer | QuestListRPG

JUNE 2024, [QuestListRPG](#)

- Developed and deployed a task manager app with game elements using MERN stack, Dalle3 API and Typescript via Heroku.

EXPERIENCE

Wordpress Developer | Self-employed

MAY 2021 - PRESENT, PUSLINCH, ON

- Developed a customized swim lesson booking website servicing over 500 users monthly, utilizing PHP, advanced plugins, and Google API for map and reviews functionalities.
- Administered web hosting and maintained plugins and databases for a medium-traffic swim lesson site on WordPress, managed through GoDaddy, supporting over 1,000 monthly unique visits.
- Managed and optimized a dynamic booking calendar tailored to meet the scheduling needs of 200+ clients per month, ensuring seamless booking experiences and high client satisfaction.

Human Resource Coordinator & Scheduler | Allied Universal

JUN 2023 - JAN 2024, WATERLOO, ON

- Proactively managed internal inquiries for over 400 employees, ensuring clarity and compliance in HR policies, payroll and benefits, resulting in a 15% decrease in HR-related issues.
- Delivered a client satisfaction score of 97%, managing a workforce of over 400 employees across 15+ clients.
- Monitored and recorded sick and vacation days for Waterloo, London and Windsor region, resulting in a 15% decrease in absences.

Senior Supervisor Team Lead | Allied Universal

JAN 2020 - JUN 2023, WATERLOO, ON

- Guided a diverse 5-member team, driving the successful implementation of industry standard security solutions.
- Facilitated, managed and audited multiple technical platforms, demonstrating high proficiency in various software applications and contributing to a 35% improvement in operational efficiency.

EDUCATION

BrainStation | Diploma, Software Engineering

APR 2024, TORONTO, ON
